

Fostering public capacity to plan, finance and manage integrated urban REGeneration
for sustainable energy uptake

FosterREG Project Overview

FosterREG Final Conference
May 11 2017. Zagreb - Croatia

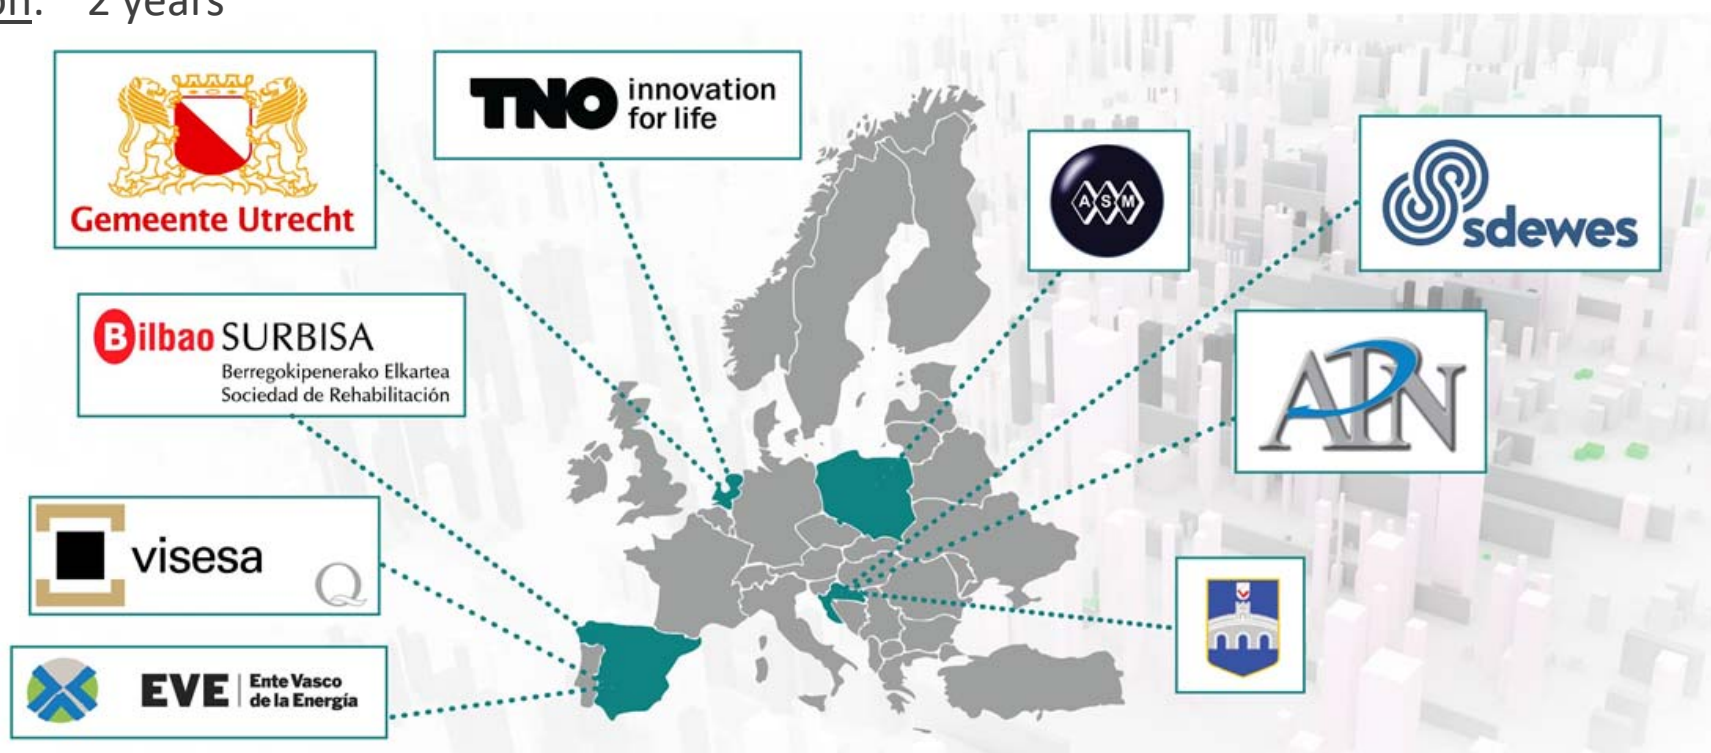

Title: ***Fostering public capacity to plan, finance and manage integrated urban regeneration for sustainable energy uptake***

Call: H2020-EE-2014-3-Market Uptake

Topic: *Enhancing the capacity of public authorities to plan and implement sustainable energy policies and measures (EE-07-2014)*

Budget: 1,4 million €

Duration: 2 years

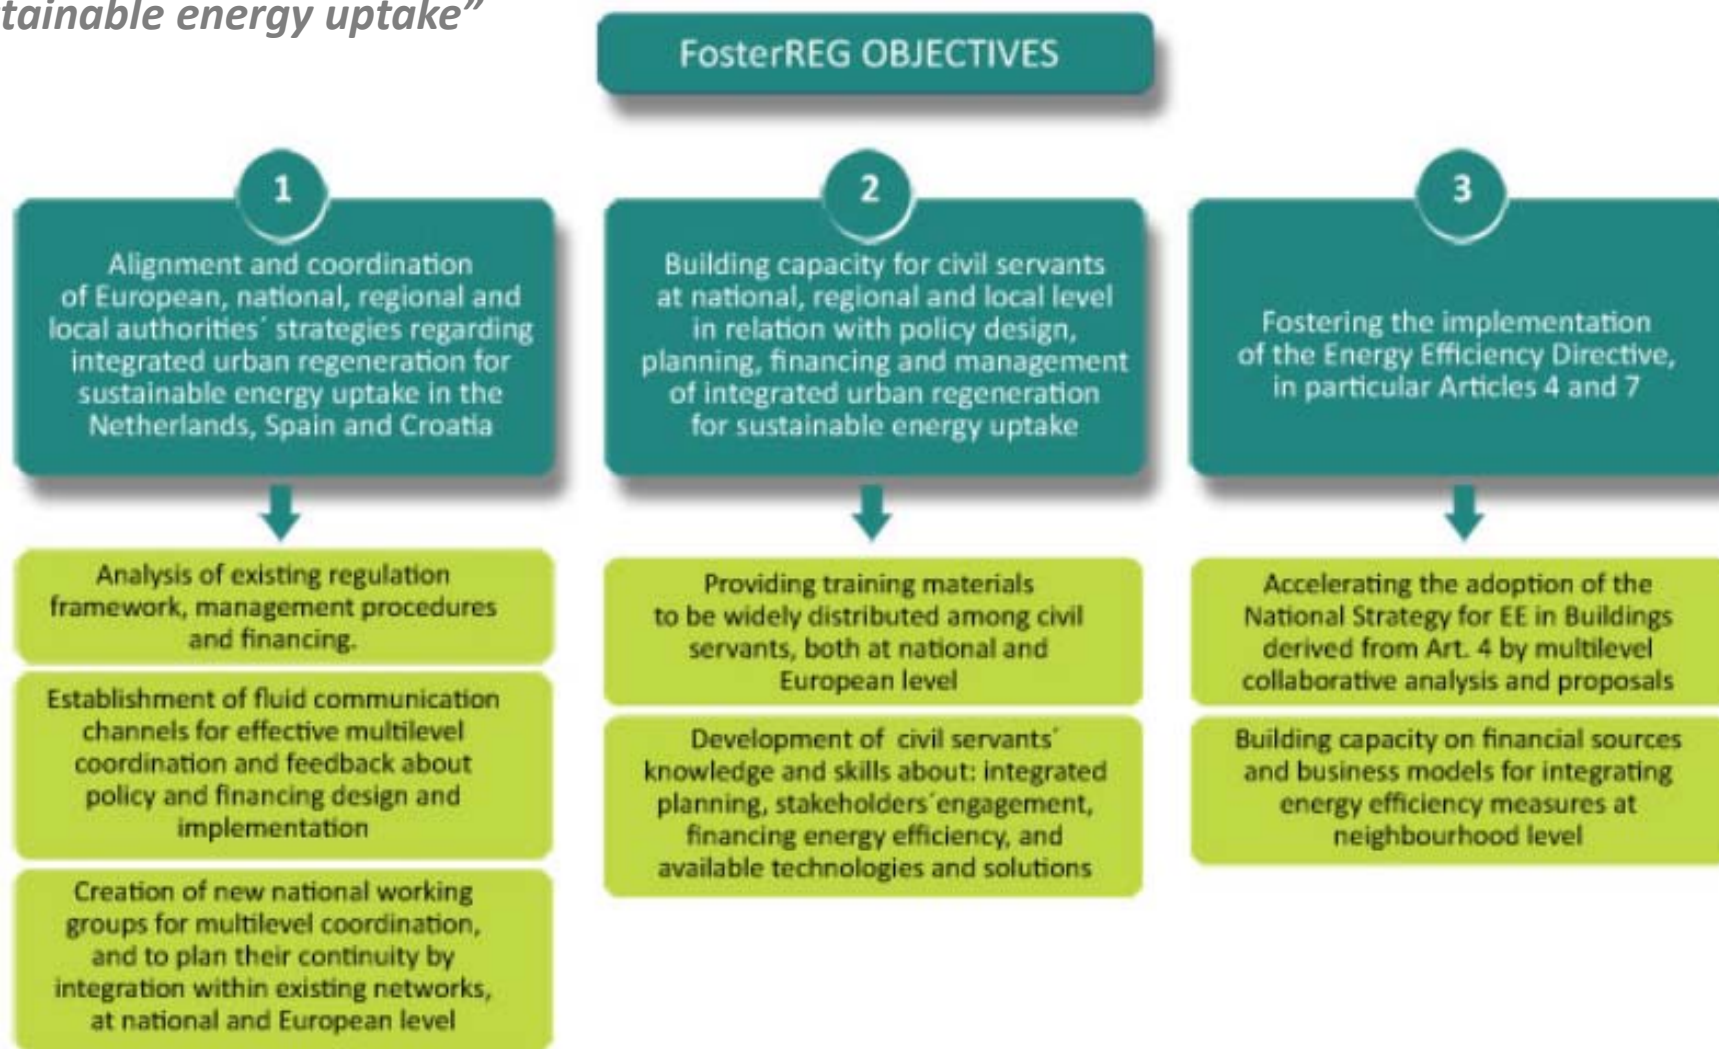

Concept and Approach:

- **Higher complexity** when moving from EE building retrofitting to neighbourhood/district scale
- Integrated approach as the main driver of European urban strategy
- **Lack of integration:** Need to integrate other dimensions and measures, and to find synergies: social, economic, over public space, mobility, etc. Many policies, plans and subsidies geared towards EE renovation, but not integrated within urban planning regulations.
- **Misalignment of policies, plans and subsidies** from different levels of government
- Key drivers for implementing EE measures at neighborhood level: **engaging stakeholders**, renovation plan **managing and financing**

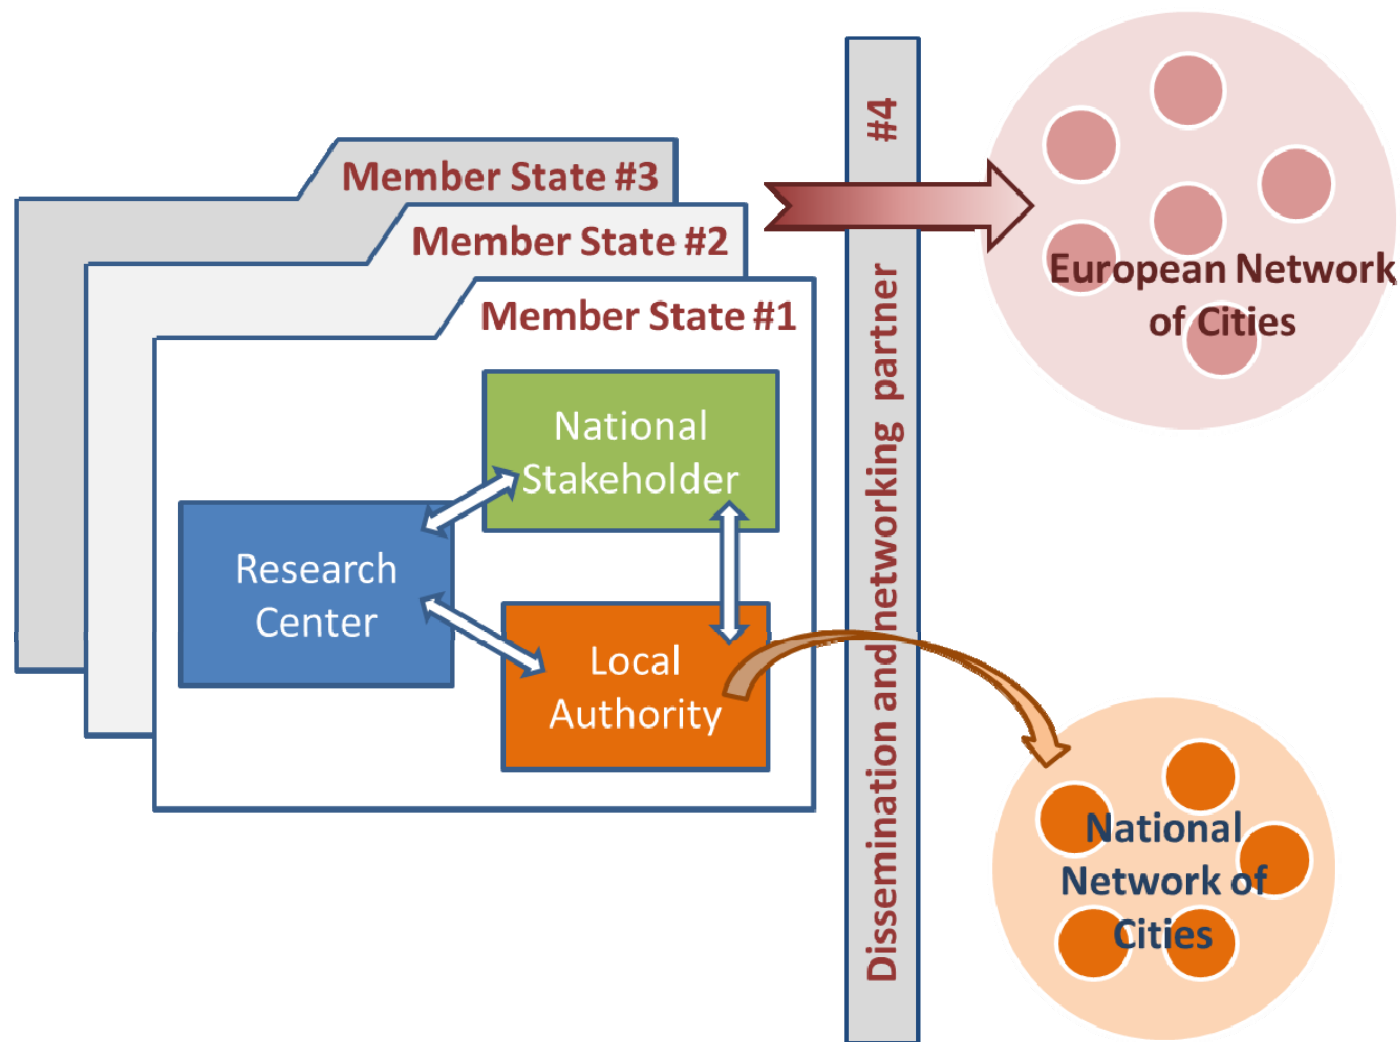

Expected Impacts

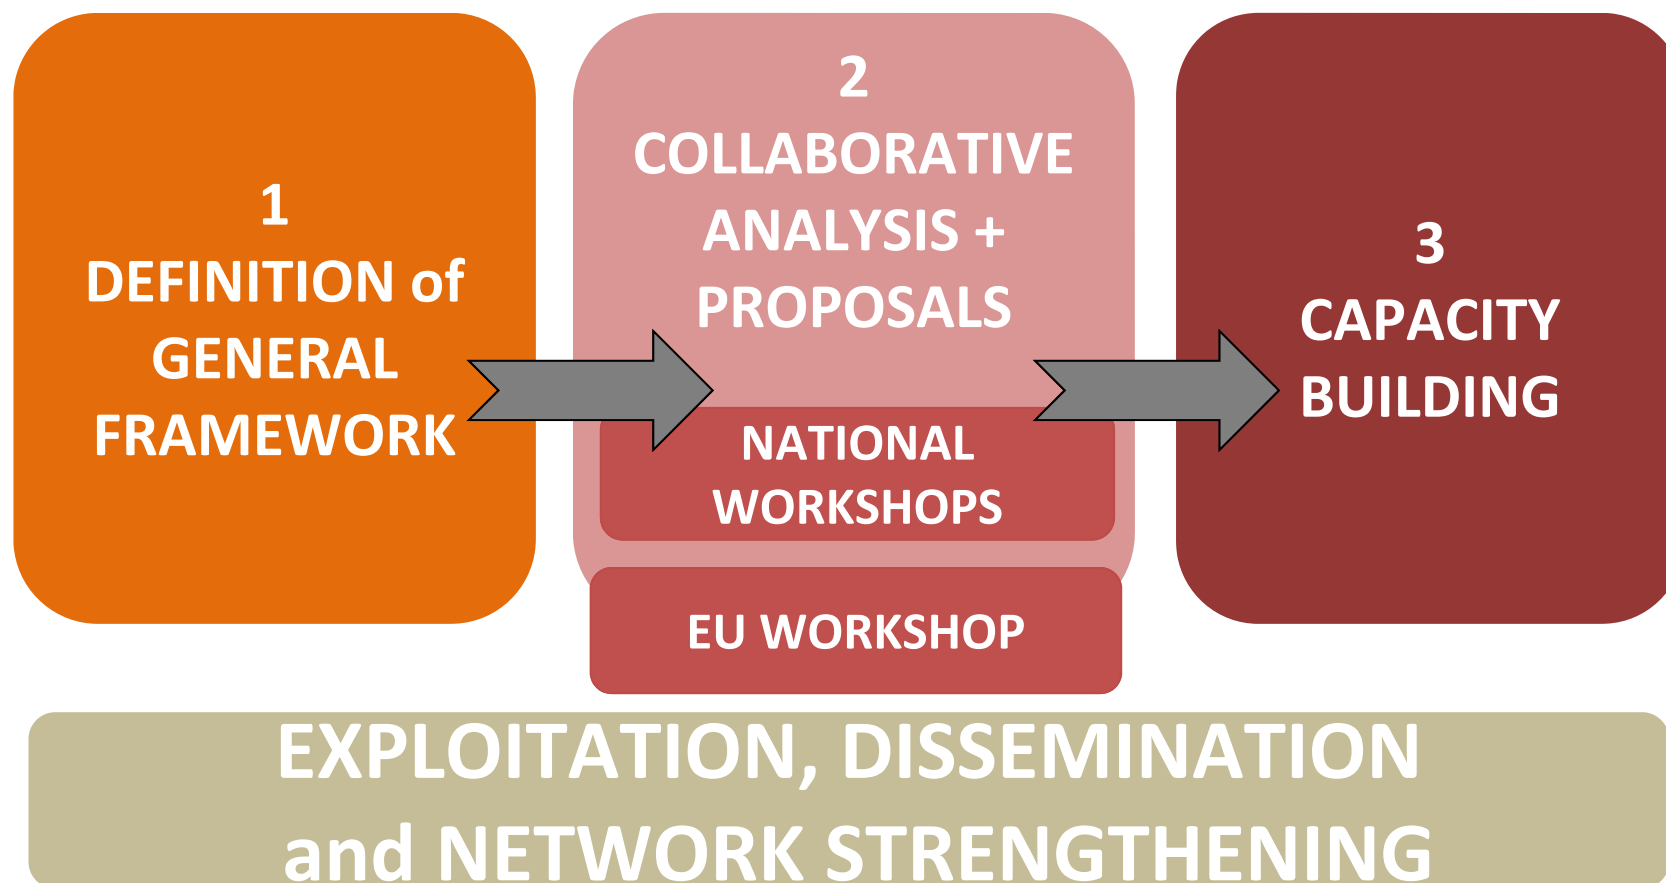

1. Influence in public officers
2. Promotion of new and improved plans and policies
 - Strategy for implementing EE measures in an urban regeneration plan in each of the partner cities
 - National strategy for multilevel coordination
3. Final consumers impacted
4. Acceleration of the Energy Efficiency Directive implementation
 - Art. 4 dedicated section in national workshops
 - Capacity building on financial aspects, such as EE obligation schemes and EE National funds

“To enhance public capacity to plan, finance and manage integrated urban regeneration for sustainable energy uptake”

CONSORTIUM: CLUSTER STRUCTURE

Country	National workshops		Training activities	
	Established indicator	Impact achieved	Established indicator	Impact achieved
Spain	60	115	200	176
The Netherlands	60	44*	100	115
Croatia	40	137	100	172
TOTAL	160	296	400	463

1- Energy efficiency in Urban Regeneration Framework Report

+

Multilevel FosterREG Stakeholder Mapping Report

2- Collaborative analysis and best practices report

+

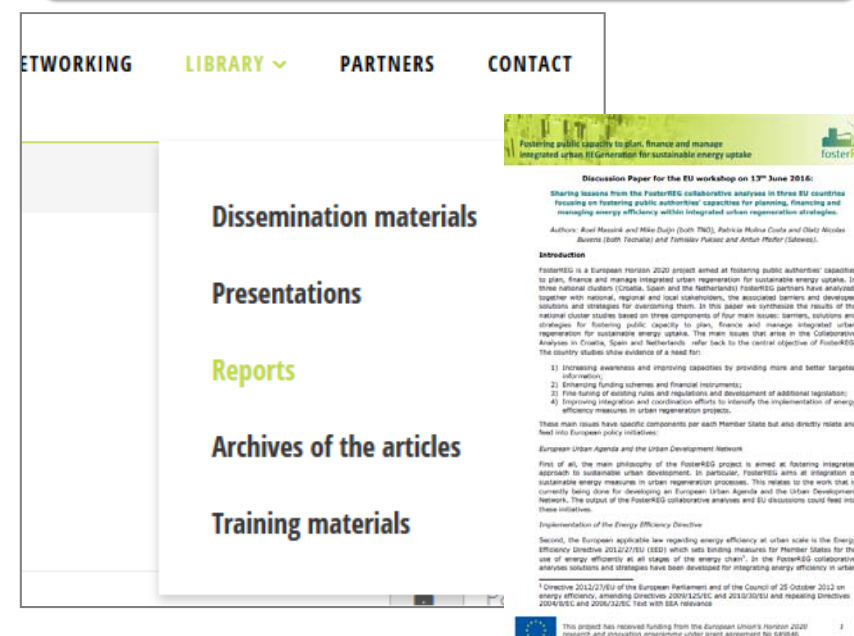

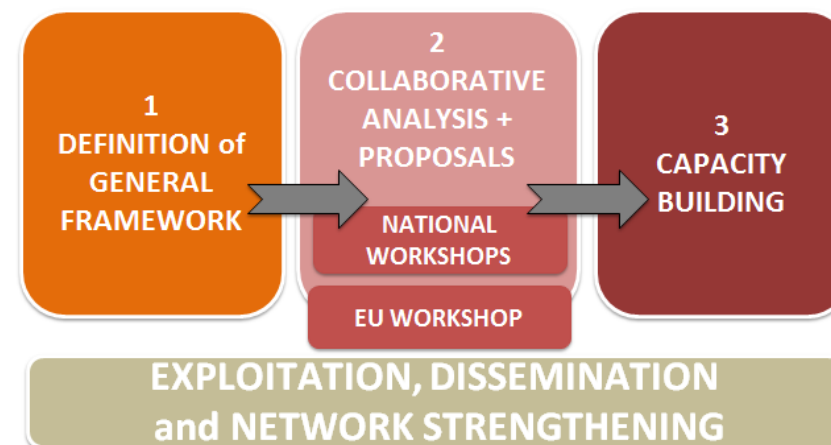

National reports for Croatia, the Netherlands and Spain

3- Capacity building Process report

+

Capacity building Materials (booklet, presentations, etc.)

All reports and materials available in: www.fosterreg.eu

- ***FosterREG Dissemination Tools:***

- Project website
- e-newsletter
- Social media (LinkedIn and Twitter)
- Project videos (Youtube Channel)
- Leaflet, poster, roll-up
- Publications in professional magazines, general media, press releases
- Dissemination of project results during events, workshops.
- Networking activities
- Final project conference
