The Journal of Sustainable Development of Natural Resources Management (JSDNAREMA) is dedicated to advancing knowledge and providing a platform for scientific discourse on Sustainable Resource Stewardship. It was launched on 1 January 2025 and has published 16 scientific articles and two editorials in its first volume. The articles treat topics such as pollution treatment, environmental accounting, Process Integration and optimisation for pollution reduction, resource recovery from waste, use of digital technologies for improved management of natural resources, water management in agriculture, wider water management issues, capture and seasonal management of solar energy, integrated strategies for energy efficiency and Circular Economy development, and food security. The journal team would like to thank the reviewers for their contribution in selecting quality articles:

1. Dr. Nathaporn Areerachakul
