GREEN PUBLIC PROCUREMENTS

The principle of environmental protection, social and labor law and ensuring energy efficiency

Article 11, paragraph 2

The procuring entity is obliged to procure goods, services or works while ensuring adequate reduction of energy consumption, i.e. respect for the principles of energy efficiency.
Implementation of EE criteria in public procurement of vehicles

**EXAMPLE**

If in the public procurement procedure PC we decide for a vehicle that consumes 1 l / 100 km LESS in relation to the vehicle of the second-ranked bidder, for every 100,000 km transported, it will consume 1,000 l of fuel LESS.

1,000 l x FUEL PRICE

(1.500 ÷ 2.000) €/100.000 km

(2.500 ÷ 4.000) kg CO2/100.000 km

**CRITERIA** ECONOMIC BEST OFFER + ENERGY EFFICIENCY
